PROFESSIONAL SUMMARY

Senior AI Product Designer across SaaS, fintech, iGaming and digital advertising, focused on AI-augmented product design and AI UX.

At Ryze Beyond (2019-2026), often the only product designer on my projects, within a design team of 1 to 4, across a SaaS dashboard with an AI chatbot and large-scale comparison platforms. Deep expertise in scalable design systems, WCAG accessibility, user research and end-to-end delivery, from research to post-launch design QA. Designs and ships front-ends with AI coding tools (Claude Code, Astro, Tailwind CSS).

PROFESSIONAL EXPERIENCE

Senior Product Designer · UI/UX & AI - *Ryze Beyond (formerly TrafficPoint)* 2019 - 2026

Often the only product designer on my projects, within a design team of 1 to 4, at a publisher of SaaS products and comparison platforms. Grew with the company from 32 to 110+ employees, working with product managers, engineers, content, marketing and SEO.

- **Sonary Software Stack Manager (SaaS dashboard):** product designer from user interviews to shipped UI. 6 core surfaces including an AI chatbot for natural-language queries, dark and light modes, 96 shipped screens from a 2,000+ frame Figma project. Delivered a full visual redesign in 9 working days.
- **Sonary comparison platform:** three major redesigns. Design system behind 1,400+ indexed pages across 37 software categories, with templates the content team uses without design support. WordPress to Webflow migration.
- **Top5:** parametric Figma design system (variables, inherited color tokens) serving ~40 verticals from one component library.
- **Playright (UK online casino comparison):** redesigned the homepage and ranking pages, with hover animations coded in HTML/CSS. Built UKGC responsible-gambling requirements into a conversion-focused hierarchy.
- **Also:** Ryze Beyond brand site (2026 redesign), Ryze Hub internal portal (self-initiated, concept to design system), Sonary email template system.
- Helped onboard the designers who joined the team, as at every company, with honest, encouraging design reviews, and shared tips, tools and design-system practices with them.
- User research, usability testing, A/B testing, personas and journey mapping to ground decisions in real user behavior.
- 5 breakpoints per product (1920 to 375), WCAG accessibility built in, developer handoff and post-implementation design QA.
- AI-augmented workflow (Claude, ChatGPT, Midjourney, Leonardo AI, Adobe Firefly, Figma AI).

Senior UI/UX Designer - *Smart.bid (LoanMax Team)* 2018 - 2019

- Led UI/UX for LoanMax and its sub-brands: web, mobile and app.
- Rebranded the website, mobile and payment app. Designed a financial portal from scratch.
- Landing pages, blog templates, marketing sites and social media visuals.

Senior UI/UX Designer - *Wochat (now Slatch, instant-translation messaging app)* 2017 - 2018

- Owned end-to-end design of the mobile app: sketches, user flows, wireframes and specifications.
- Researched and proposed new features; owned the brand; designed mobile and desktop sites, built in HTML5 / CSS3.

UI/UX Designer - *GamingTech (SBTech Group)* 2015 - 2017

- Designed mobile and web products for 10Bet, Real Deal Bet and Bet Rally, from wireframes to final UI.
- Designed landing pages, applications, and interactive HTML5 / CSS3 banners and calendars.

EARLIER EXPERIENCE

Interactive & UI/UX Designer - Mench - Qdigital **2013 - 2015**
Digital campaigns, microsites and rich media for Israel Discount Bank, Coca-Cola and Laline.

Interactive Art Designer - IGMD Affeurope - Tradologic **2011 - 2013**
White-label casino platforms: casino lobbies, player-facing UI.

Interactive Art Designer - Arc Interactive (Publicis Group) **2006 - 2011**
Campaigns for Nokia, Cadillac, Chevrolet and Bank Leumi; 12+ Cactus awards.

Department Manager & Print Designer - Gestimo **2003 - 2005**
Managed the in-house print and digital design department of a real-estate advertising firm.

AI PROJECTS

- **Portfolio site:** designed and shipped with Claude Code using Astro, Tailwind CSS, Cloudinary and Cloudflare Pages.
- **APEX Athletic Club (with its AI chatbot, APEX Coach):** a fitness club website where the AI coach offers several tools, used separately or together: workout plan, meal plan, BMI, metabolism and macro calculations. Every result updates the member's profile. Self-initiated, on a live LLM (Llama 3.3).
- **Trattoria Fiori:** a refined trattoria: full brand identity, menu and table booking with a demo sign-in. Designed and built with AI, from research to finished product, every choice directed by me.
- **Facet:** self-initiated finance app: drop a bank statement and see where the money goes; a live LLM (Llama 3.3) picks the view, the code computes every figure, in 7 languages.
- **Margin:** self-initiated AI reader on a live LLM (Llama 3.3) that explains any document and links every point to the passage that supports it.
- **Otium:** self-initiated AI travel agent on a live LLM (Llama 3.3) that plans in the open and asks before it acts, in 5 languages with right-to-left support.

SKILLS

AI UX & AI Tools: AI-UX Design, Conversational UI, Chatbot UX, AI-assisted Prototyping, Claude (Claude Code, Artifacts, Skills), AI Agents, ChatGPT, Gemini, Midjourney, Leonardo AI, Adobe Firefly, Figma AI, Runway, Sora, Kling, Higgsfield

UX & Product: User Research, Usability Testing, A/B Testing, Personas, Journey Mapping, Competitive Analysis, Information Architecture, User Flows, Wireframing, Prototyping, Interaction Design, SaaS & Dashboard Design, Conversion-focused Design

Design Systems & Delivery: Design Systems, Design Tokens, Figma Variables, Component Libraries, Responsive & Mobile-First Design, iOS & Android Design, Accessibility (WCAG), Developer Handoff, Design QA, Cross-functional Collaboration

Design Tools: Figma (primary), Photoshop, Illustrator, Sketch, After Effects, Cinema 4D, ZBrush, SVGator, Adobe XD

Front-end & CMS: HTML5, CSS3 (Flexbox & Grid), Tailwind CSS, Astro, Webflow, WordPress

Visual & Motion: Branding, Iconography, Vector Illustration, UI Animation, SVG Micro-interactions, 3D Rendering

EDUCATION

ORT Strasbourg (France) - Software Engineering School
Specification, design and programming of web applications and websites

UI/UX Design Certification · Tal Florentin

Ongoing learning: Udemy, UX Planet, YouTube, OpenClassrooms (formerly Site du Zéro)

AWARDS & RECOGNITION

12+ Cactus Gold, Silver and Bronze awards, Israel's top advertising awards, at Arc Interactive (Publicis Group), 2006-2011, as part of the creative team.
